BRIDGING THEORY & PRACTICE

Dental Implantology

A FOCUS ON POSTERIOR IMPLANT

Join us in this transformative learning experience and pave the way to becoming an accomplished practitioner in dental implantology.

Striking a harmonious balance between theory and practice, we clarify the intricate elements of implantology. Through engaging lectures, demonstrations, and immersive hands-on sessions, you'll gain in-depth understanding of patient evaluation, treatment planning, surgical techniques, and post-operative care.

26TH AUG 2023

- Module 1 - Lecture
- 9am to 5pm

16TH SEP 2023

- Module 2 - Lecture / Hands-on
- 9am to 5pm

26th August & 16th September 2023

BRIDGING THEORY & PRACTICE

Dental Implantology

26th August 2023

Understanding Dental Implantology & Posterior Implants

Session 1: Introduction to Dental Implantology

- Basic concepts and terminology
- Benefits and limitations of dental implants

Session 2: Anatomical Considerations and Bone Grafting for Posterior Implants

- Understanding maxillary and mandibular anatomy
- Introduction to bone grafting: types, techniques, and timing
- Unique challenges posed by posterior sites and the role of grafting
- Importance of radiographic evaluations

Session 3: Dental Implant Designs, Materials & Grafting Materials

- Different types of dental implants and their applications
- Material considerations for implants: titanium, zirconia, etc.
- Overview of grafting materials: autografts, allografts, xenografts, and alloplasts
- The role of implant design in posterior restorations
- Lunch Break (1 hour)

Session 4: Surgical Planning for Posterior Implants

- Detailed patient evaluation
- Surgical guides and their use
- Case presentations and discussion

Session 5: Prosthetic Considerations in Posterior Implants

- Principles of occlusion in implant prosthetics
- Fabrication of posterior implant restorations
- Achieving optimal aesthetics and function

BRIDGING THEORY & PRACTICE

Dental Implantology

16th September 2023

Clinical Procedures, Digital Workflow & Managing Complications

Session 1: Hands-on Training: Surgical Placement and Bone Grafting for Posterior Implants

- Use of surgical guides; pros and cons
- Hands-on practice with models
- Surgical techniques for posterior implant placement and bone grafting

Session 2: Digital Impressions and Restorations for Posterior Implants

- Introduction to digital dentistry: advantages and challenges
- Techniques for digital impression
- CAD/CAM in restoration design
- Fitting the digital prosthetic and adjusting occlusion
- Lunch Break (1 hour)

Session 3: Maintenance and Management of Posterior Implants

- Importance of routine maintenance
- Role of the patient in maintaining implant health
- Prevention of common complications

Session 4: Identifying and Managing Complications

- Common complications in posterior implantology
- Diagnostic tools and techniques
- Non-surgical and surgical management strategies

Session 5: Case Studies and Discussion

- Discussion of different scenarios and solutions
- Q&A and closing remarks

ABOUT THE COURSE

JOIN US AT ROYCE DENTAL ACADEMY FOR A TWO-PART IMMERSIVE COURSE ON "UNDERSTANDING DENTAL IMPLANTOLOGY & POSTERIOR IMPLANTS" AND "CLINICAL PROCEDURES, DIGITAL WORKFLOW & MANAGING COMPLICATIONS". HAPPENING ON 26TH AUGUST AND 16TH SEPTEMBER 2023 RESPECTIVELY, THIS COMPREHENSIVE PROGRAM, GUIDED BY OUR PRAXIS PIONEERS, IS METICULOUSLY CRAFTED TO PROVIDE A BLEND OF IN-DEPTH THEORETICAL UNDERSTANDING AND HANDS-ON PRACTICAL EXPOSURE. ACROSS TWO TRANSFORMATIVE SESSIONS, YOU'LL JOURNEY THROUGH THE COMPLEXITIES OF DENTAL IMPLANTOLOGY, DIGITAL DENTISTRY AND COMPLICATION MANAGEMENT, WITH A KEEN FOCUS ON POSTERIOR IMPLANTS. THIS ENGAGING PROGRAM SEEKS TO BRIDGE THE GAP BETWEEN THEORY AND PRACTICE, ENSURING THE KNOWLEDGE AND SKILLS GAINED HERE CAN BE DIRECTLY APPLIED TO ELEVATE YOUR CLINICAL PERFORMANCE. DON'T MISS THIS UNIQUE OPPORTUNITY TO ADVANCE YOUR PRACTICE IN IMPLANTOLOGY.
