M ENDO RCS (Edinburgh)

## SYNOPSIS:

Patients presenting with acute dental pain are often a challenge to manage, both in diagnosis as well as the subsequent management. Join Dr. Huang Shuyan and Dr. Tan En En, Endodontists from Royce Dental, in this case-centered lecture, as they share some practical tips and tricks to help you improve your diagnosis and management of patients with endodontic pain!

What will be covered:

- Clinical tips to identify the offending tooth and etiology of pain
- 2D and 3D imaging to aid in diagnosis
- Effective techniques to achieve adequate anaesthesia
- How to identify anatomical features of the pulpal floor during access cavity preparation
- Concept of pericervical dentine
- Evidence on cracked teeth and communication with patients about restoring their compromised cracked teeth

**DATE: AUGUST 20, 2023 (SUNDAY)**

**TIME: 9 AM - 12 PM**
