SYNOPSIS

When we reach the limits of non-surgical scaling and root debridement,

How do the benefits of periodontal surgery come in?

What are its suitable indications to save compromised teeth?

How can we answer common questions from patients about surgical periodontal therapy?

Through clinical case sharing, this Zoom session aims to provide general dental practitioners with a clearer understanding of how, and when, periodontal surgery can be a useful tool for improving tooth prognosis.

This Zoom session is part of our **2026 Zoom Series**, where Royce Dental Group specialists will share their expertise and answer any questions you've had on when and under what circumstances to refer patients. Spanning disciplines such as Orthodontics and Periodontics, this is a **must-attend learning series you don't want to miss!**

ABOUT THE SPEAKER

Dr Ivan Lim
Periodontist

Dr Ivan Lim is an accredited specialist in Periodontology by the Singapore Dental Council. He was awarded an NDCS scholarship to pursue his postgraduate training. Dr Ivan obtained his Master of Dental Surgery in Periodontology from NUS in 2020. He currently practises at the Clementi Mall, Paragon, Tiong Bahru and Katong branches.
