SYNOPSIS

Signs of periodontal disease include bleeding gums, swollen gums and tooth mobility. In severe cases, this can lead to pathologic tooth migration and other symptoms.

This presentation aims to cover:

- 1 What is pathologic tooth migration
- 2 Why does it occur
- 3 How can we prevent and treat it

This Zoom session is part of our **2026 Zoom Series**, where Royce Dental Group specialists will share their expertise and answer any questions you've had on when and under what circumstances to refer patients. Spanning disciplines such as Orthodontics and Periodontics, this is a **must-attend learning series you don't want to miss!**

Dr Edwin Goh

Periodontist

Dr Edwin Goh is a periodontist at Smileworks and Visiting Specialist at the National Dental Centre Singapore (NDCS).

He holds a Bachelor of Dental Surgery and a Master of Dental Surgery (Periodontology) from the National University of Singapore. He was elected as a Member of The Royal College of Surgeons of Edinburgh in 2016 and was accredited as a periodontist by the Singapore Dental Council in 2019.

In the same year, he was awarded the International Team for Implantology scholarship, spending a year at the Tokyo Medical and Dental University, Department of Oral Implantology and Regenerative Medicine.

Dr Goh has published in international peer-reviewed journals and has been actively involved in teaching dental students and oral health therapists at Nanyang Polytechnic, NUS, and NDCS.
